TRUST LANDS

1. As a team, we discussed the goals and the action steps. The first goal is an academic goal. The data will be compared to previous year's data due to no testing this year.

Restorative Practices was described by the principal "when we have their hearts, we have their minds." There is so much information about restorative practices online like this -- <https://www.iirp.edu/restorative-practices/what-is-restorative-practices>

The principal will design an implementation team. This is a statewide mandate that the districts implement restorative practices. The school will track the student referrals and examine trends and patterns. The school is thinking big, but starting small.

FUNDRAISING

Holding off on the School Fundraiser Idea, we will reexamine this next year. We need to reach out to our neighbors and friends if we know of anyone in need.

TEACHER CHECK-IN

The SCC wants to express its sincere gratitude to the teachers and principal for the smooth transition to online learning.

The District recommends between 3 and 4 hours per day, but Riverton understands that this can be a stressful time.

Parents would love to say we love the online meeting forum.

Please communicate with teachers if there are any issues or concerns.
