# Why invest in music classes?

A music education is a crucial part of a well-rounded education.

Students who learn to play an instrument improve in the following areas:

- cognitive skills
- memory
- fine-motor skills
- coordination
- creativity
- self-expression
- self-discipline
- resilience
- self-esteem
- social skills
- teamwork & collaboration
- emotional & mental health

Music transcends the limits of language & overcomes barriers. It brings people together, builds community, and gives all students an opportunity to be successful.

## Meet the Teacher

### Hi! I'm Miss M!

A little bit about me: I grew up playing the piano, and later I learned to play guitar, violin, organ, ukulele, cello, and viola.

I've been teaching music for 10 years. This will be my second year teaching orchestra, and my third year teaching at an elementary school. I also teach art at Herriman Elementary!

It's really important to me that my classroom is a safe space and that all of my students feel like they belong. I believe every student can be successful in music and that the most important thing is to have fun!

In my free time I love to do crafts, watch movies, play games, eat treats, and hang out with my dog & cat.

I can't wait to meet you all! Here's my email address – don't hesitate to reach out with any questions!!
